

Increased warehouse handling capacity and better relations with carriers

Dock Scheduler is an intuitive and flexible slot management solution. You keep full control on your unloading and loading process. You get things organised, reduce costs and make carriers more willing to do business with you.

Dock Scheduler named the best solution

to optimise warehouse, transport and distribution costs (Sep 2022)

CHALLENGES FOR SHIPPERS

Unknown and unpredictable arrival of trucks

Bottlenecks and idle time create stress and damage service level for inbound and outbound. Demurrage costs are paid.

Inefficient management of storage location capacity damages operations & budget

Staff and equipment are over dimensioned to manage unpredictability. Extra labor costs are paid.

Time consuming appointment scheduling process

Too much time is dedicated to book, update or cancel appointments by phone and mails.

Data and communication are decentralized & segmented

There is no single source of truth to manage collaboration between all internal and external players.

Dock Scheduler =

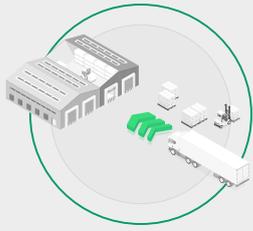

Dock management + Appointment scheduling + Gate operations

Dock management

Gate operations

Appointment scheduling

What can you get from Dock Scheduler?

Hard and soft savings achieved

Efficient organization of staff, equipment and communication.

No more queues in front of the warehouse

Loading wait times reduced by up to **70%**.

Handling capacity increased by 25%

The workload is planned evenly for a given day.

Reduced downtime and resources planned in advance

Internal and external players are made aware about the concrete available slots at any time ensuring transparency and efficient collaboration.

Safety and compliance enhanced

Centralized information and actionable data for better decision and control.

Gain flexibility by handing over the booking process to your suppliers and carriers

They can book a slot themselves at any time. EXW or DDP, we can manage everything.

Attractive pricing without any charges for suppliers or carriers

Quick implementation within a few weeks

A 100% cloud solution. Easy access for all players connected

Seamless onboarding of suppliers and carriers
